

BLENDERS

FINEX RIBBON MIXER	
	
MODELS	FRM 30/50/100/200/500/1000/3000 Ltrs.
Volume	50- 5000kgs Batch mixing
Power	0.5 to 50HP
Function	There is a specially designed heavy duty spiral agitator mounted on a center shaft effectively sealed to prevent leakage. The mixer quickly produces a thorough and homogeneous blend and directs the mixing to the discharge outlet at the base of the trough making the mixer self emptying Mixing time 3 to 15 minutes

FINEX PADDLE MIXER	
	
MODELS	FPM 20/60/120/200/500/1000/2000/5000
Capacity	20 to 5000 Ltrs
Power	1HP to 75HP
Function	Fast Mixing Dual rotors with paddles do fluidized mixing for most fragile material, prevents re segregation & provide homogeneity with mix variance that is less than 1% in SECONDS NOT minutes
