

# MATERIAL HANDLING

<b>FINEX P J D C Bag Filters</b>	
	
<b>MODELS</b>	<b>FDC JET/OPEN TYPE</b>
<b>Advantages</b>	<p><b>*Very high efficiency of dust collection</b></p> <p><b>*Minimum maintenance because there are no moving parts.*Low installation cost</b></p> <p><b>*Low space requirements.*Changing of bags without entering into the dirty air chamber is possible . *Any bag can be removed without disturbing the others.*Constant efficiency irrespective of dust loading.*SIZES: 7 sq mtre to 75 sq m</b></p>

<b>FINEX ROTARY AIRLOCK VALVES</b>	
	
<b>MODELS</b>	<b>FRAV 4/6/8/12 INCH</b>
<b>Power</b>	<b>½ to 3 HP</b>
<b>Design</b>	<b>Drop through Type for direct gravity discharge of powders granules into collection bins receivers &amp; Blow through type, for cohesive materials which are not easily discharged so conveying air passes through and purges the discharge pockets.</b>
<b>Appl ication</b>	<b>Used for transfer of dry solid granular solids powders between parts of a system at equal pressure with minimum air losses in different pressure conditions.</b>
