

# MATERIAL HANDLING

<b>FINEX VIBRATORY FEEDER</b>	
	
Capacity	<b>10 to 5000 kgs/hr.</b>
Design	<b>Electromagnetic coil is housed in enclosure vibrates the Feed material .</b>
Appl ication	<b>For controlled Feeding of materials at preset rates into further Process Equipments</b>
Advantages	<b>Intensity of vibrations can be varied to vary feed Rate to further equipment.Storage hoppers can be fitted above the Feeder to hold material.</b>

<b>FINEX ROASTING EQUIPMENTS</b>		
		
Power	<b>3 to 20 hp</b>	
Capacity	<b>50-1000kgs batch</b>	
Function	<b>This is insulated rotating &amp; tilting drum which is running at a slow speed. The rotating drum is heated directly by gas burners/Electric or by indirect heating.</b>	
Appl ication	<b>Spices,coffee, rice,chicory, cashewnuts, gramdals, groundnuts.</b>	
Time Period	<b>15-60 minutes</b>	
TEMPERATURE	<b>100 TO500DEG C</b>
